Leadership Report
to the Board of Trustees
Examination Results 2022-23

October 2023

Awarding process

It should be noted that the year group sitting these examinations will have been affected by the pandemic and will not have had the opportunity that previous years will have had when they have studied at RVC. Due to this pupils especially our pupils have significant gaps in their learning especially with the fundamentals of subjects due to their access during and after the pandemic. The year 11 cohort have also missed a significant amount of learning in their year 10 year with 58% attendance and other challenges.

Year 11 - Summer Headline Results
RVC
14 candidates in Year 11

Year	RVC 2022-2023 (14 students)	Latest Available National Average	Difference	RVC 2021-2022 (14 students	Difference 2021/22 - 2022/23

Analysis

We have seen a huge increase in the amount of qualifications achieved with 51 in total last year rising to 87 which is a 71% increase with the same size cohort.

All pupils attended every exam in the summer series with 71% turning up to collect their results which shows the attitude of the cohort.

Adding from last year we have improved the amount of the cohort sitting functional skills and learnt a lot in this process to hopefully show improvements again next academic year.

We have increased the offer to the pupils giving them a larger range of subjects to choose that they are able to gain an accreditation for.

We have one pupil who did not attend onsite due to medical reasons which is why they did not achieve a GCSE qualification he completed but did complete Functional Skills in Maths and English at Entry Level.

We had 9 pupils who gained 5 qualifications and above, the other 4 pupils had poor attendance significantly below 50% or were on a different time table.

Our large area for improvement is to see a rise in grades 9-4 across the board, the groundwork for this is the greater consistency in teaching that our year 10's received this year as well as interventions.

Year 11 pupils also received 110 AQA award units between them in addition to the qualifications above.

Year 11 - Summer Headline Results
WVC
17 candidates entered in Year 11

Year	WVC 2022-2023 (17 students)	Latest Available National Average	Difference	WVC 2021-2022 (10 students)	Difference 2021/22 - 2022/23

Analysis

- Students this year have been affected by the pandemic, their KS3 education would have been significantly interrupted and their attendance at KS3 was likely to be low.
- At KS4 the gaps in their learning, and their readiness to learn was a challenge for students.

- Staffing at WVC went through considerable change whilst this cohort was in Year 11, not only teaching staff but pastoral staff which the students rely on when times are tough.
- Attendance for exams was very good, all bar one student gained a GCSE in Maths and English, the one that did not attended the fist papers but went missing and did not sit the second paper unfortunately.
- Collection of results was excellent, 82.35% of students attended school on results day.
- As reported nationally grade boundaries were back up to pre pandemic standards
- Our area of development is to increase attendance, drive up standards in teaching across the whole school, this will enable students to achieve greater outcomes.
- Overall a pleasing set of results which enabled students to move on to the next chapter of their life.
